EDUCATION

MAN 4 Tangerang

2019 - 2022

Sains & Matematika, Robotika

Tangerang

- Received a certificate for the “Coding and Robotics Using Magnetcode and Android Smartphones” workshop organized by the Robotics Organizing Committee of Indonesia (ROCI).
- Arduino project: “Earthquake Detection System Using Vibration Sensors.”

Multimedia Nusantara University

2022 - 2026

Bachelor of Computer Science

Tangerang

- Earned an intermediate-level Python training certificate covering object-oriented programming, data management, and the application of basic algorithms.
- Earned a Python training certificate with a focus on AI from DQLab.
- Earned the HCIA-AI V3.5 certification from Huawei, focusing on the fundamentals of artificial intelligence, the application of AI using Python, and an introduction to Huawei’s AI platform.

WORK EXPERIENCE

PT. Summarecon Agung Tbk - Internship

Februari 2025 - Januari 2026

Web Developer (Engineering) | Full Stack Developer

Jakarta Utara

Designing and developing a Network Infrastructure Information Management System website using PHP, MySQL, and Bootstrap, which includes UI/UX development, database development, CRUD features, document management, data visualization, automated notifications, and management of corporate infrastructure data.

LEADERSHIP EXPERIENCE

Maxima UMN 2023 - Universitas Multimedia Nusantara

Februari - November 2023

Member of the decoration division

Developing designs and bringing them to life for use at UMN’s largest annual event for new students. The decorations created will be used at student club and campus organization booths, as well as to decorate the venue for the event’s grand finale, which features renowned singers and bands.

PPIF 2024 - Universitas Multimedia Nusantara

Februari - September 2024

Member of Security division

The main task of this division is to ensure and be responsible for maintaining security and order in every aspect of PPIF activities to prevent disruptions, whether from external or internal sources. This includes managing approximately 210 participants, planning and overseeing the flow of incoming and outgoing freshmen, and establishing event regulations and bag-checking procedures.

PROJECTS

Website Recommended for Extracurricular Activities <i>Final Project (Thesis)</i>	<i>Februari 2026 - Juni 2026</i>
Web Developer, Artificial intelligence (AI)	
Developed an AI-based web application using the Forward Chaining algorithm to recommend extracurricular activities based on students' interests and preferences, delivering personalized activity suggestions through a web platform.	
Link Web: https://ekspresimahkota-pi.vercel.app/	
Website Dashboard Management System - <i>Internship Project</i>	<i>Februari 2025 - Januari 2026</i>
Full Stack Developer	
Developed a network infrastructure management dashboard as a Full-Stack Developer, designing the UI/UX, database, frontend, and backend with CRUD operations and automated document expiration reminders.	
Mobile Application ConcerTix - <i>Mobile Application Developer, UI/UX Designer</i>	<i>September - Desember 2024</i>
Designed a concert ticket booking app prototype in Figma and developed the Android app using Kotlin and Android Studio. Implemented the Home, Ticket Detail, and Profile screens, with features including concert discovery, GPS venue navigation, and identity verification. Link prototype: https://www.figma/prototype/ConcerTix/	
Prototype App Budget Boost - <i>Project Manager & UI/UX Design</i>	<i>Oktober - November 2024</i>
Served as Project Manager for a fintech app prototype, leading a five-member team through user research and Design Thinking to develop a gamified personal finance solution for Gen Z. Link prototype: https://www.figma/prototype/BudgetBoost/	
Prototype App CareFull - <i>UI/UX Design</i>	<i>April - Juni 2024</i>
A health mobile app prototype designed in Figma, featuring medical checkup registration, medication ordering, and online payment, while applying the 8 Golden Rules of Human-Computer Interaction. Link prototype: https://www.figma.com/prototype/CareFull/	
Website Pura Dharma Sidhi Karya Ciledug School (PKM) - <i>Frontend Developer</i>	<i>September - Desember 2023</i>
Developed a Pasraman school website using PHP (Laravel) and MySQL. As a Front-End Developer in a seven-member team, I converted Figma designs into HTML and optimized the code for better readability and maintainability.	
Website Coffee Shop - <i>Frontend Developer</i>	<i>Mei - Juni 2023</i>
Developed a coffee shop website using HTML, CSS, JavaScript, and ReactJS. As a Front-End Developer, I built the Menu page, styled the UI, implemented AOS animations, and integrated a Maps API. Link web: https://curio-brew-project-uas.vercel.app/	
Website UMN Gotcha - <i>Full Stack Developer (Backend & Frontend)</i>	<i>Maret - April 2023</i>
Developed a virtual pet simulation website using HTML, CSS, and JavaScript in a three-member team. As a Full-Stack Developer, I built the UI, implemented game logic, and developed features including the day–night cycle and pet health system.	

CERTIFICATIONS

DQLAB AI-Powered Learning	<i>Agustus 2024</i>
• Data Science with Python, Guide to Learn SQL with AI & Guide to Learn Python	
Huawei ICT Academy Certificate - <i>HCIA-AI V3.5 Course</i>	<i>Mei 2024</i>
Sololearn Course Certificate	<i>Februari & April 2024</i>
• Introduction and Intermediate to Python • Intro to Java and JavaScript • Intro to HTML and CSS	
Coding and Robotics using Magnetcode and Android Smartphone	<i>Mei 2020</i>
• ROCI (Robotic Organizing Committee Indonesia) and University of Bandar Lampung (UBL)	

SKILLS

Developer & Creative Tools: Microsoft Office (Word, Excel, PowerPoint), Visual Studio Code, Git, Android Studio, Figma, Canva.
Technical Skills: React.js, Laravel, Next.js, Express.js, TailwindCSS, Bootstrap, C, HTML, CSS, JavaScript, PHP, MySQL, Python, Kotlin.
Soft skills: Logical and Creative Skills, and Teamwork Abilitie.
